# STRIKE SET FOR FRIDAY

## MEMBERS OF TRIPLE ALLIANCE GET CALL

(By Associated Press)  
LONDON, April 13.—Great Britain's triple alliance of labor will call its members from their posts at 10 o'clock Friday night, it was announced here today.  
The decision follows the inability of the Miners' Federation to reach an agreement with the mine owners and the government for the settlement of the miners' strike, which began April 1.  
The government, in a statement today, declared that "in the event of a threatened extension of the stoppage of work, the government wishes to make it clear that it will use its fullest powers of state to protect workers who remain at work and the services essential to the life of the community."  
The Daily Mail declared the executive committee of the electrical unions resolved last night to support the triple alliance. An electricians' strike would paralyze the telephone, traffic and public lighting companies. It has been estimated that if the triple alliance calls a strike about 4,000,000 persons would be idle in England.  
Proponent of the triple alliance strike yesterday has created an acute situation within the labor camp. It is understood the miners made a peremptory demand upon their partners in the alliance that they declare finally whether they intend to strike and if so, when. While discussions were going on among several parties to the controversy reports were coming in of sporadic outbreaks in mining and other industrial centers. None of these, however, had any serious aspect.  
The miners, according to the Evening Standard, have decided that there can be no renewal of negotiations for a strike settlement even if the invitation emanates from the government or the labor leaders.

Following is Senator Pittman's reply.

Washington, D. C., April 13.—E. Carlson, Chairman of Committee, Tonopah, Nevada.  
I am in receipt of your telegram of April 12 stating that operators had arbitrarily cut wages 75 cents per day without notice and requesting me to amend the Pittman bill so that wages remain the same while silver is \$1. In my speech at Tonopah I urged both miners and operators to let well enough alone. I did then and do now under all conditions consider reduction of wages an unnecessary and unfortunate matter, too important and too complex to be discussed in a telegram. I am writing you fully and will expect a carefully considered reply. This is a matter of such vital importance, not only to the miners and stockholders, but to all of our people, that I will make public all correspondence so that the advice of all may be invited and received. Please give this telegram to the press.  
KEY PITTMAN.
